SATYA PAVANI NOOKALA

ANGULAR DEVELOPMENT PROFESSIONAL

- *Seasoned & versatile management professional with cross-functional experience of 10+ years across highly reputed business establishments*
- *Skilled in designing & developing user interfaces using Angular best practices; adapting interface for modern internet applications using the latest front-end technologies.*

Location Preference: Hyderabad | Industry Preference: Insurance

Core Competencies

- ANGULAR
- TYPESCRIPT
- NODEJS
- NESTJS
- EXPRESSJS
- ELECTRONJS
- GIT
- CI/CD PIPELINES
- JAVA
- J2EE
- Azure DevOps

Profile Highlights

- Well-versed with **Angular, Typescript, NodeJs, NestJs, ExpressJs, ElectronJs, GIT, CI/CD Pipelines, Java and J2EE;** possess technical expertise in **full-stack development.**
- Familiar with front-end software design patterns - **Asynchronicity, Data Binding, Modules, Objects & Promises;** deep knowledge of Angular practices and commonly used modules based on extensive work experience
- Deft in creating self-contained, reusable, and testable modules and components in **Angular**; creating custom, general use modules and components which extend the elements and modules of **core Angular**
- Adroit in creating modular, scalable, testable, tested systems which interface via well-defined end points using software engineering best practices such as unit testing, TDD, design patterns.
- Exposure in implementing, testing, maintaining and supporting software, based on technical design specifications; preparing technical design specifications based on functional requirements and analysis documents.
- Working independently to plan, prioritize, and complete high complex critical priority work assignments; promoting Continuous Improvement by identifying process in efficiencies and quality improvements

Professional Timeline

Nov 2015 – Dec 2018 | Unisys India Pvt. Ltd., Hyderabad | Support Team Lead

Since Dec 2018 | Tech Mahindra Pvt. Ltd., Hyderabad | Technical Lead (Fullstack Development)

Since Dec 2018 | Tech Mahindra Pvt. Ltd., Hyderabad | Technical Lead (Full-stack Development)

Key Result Areas:
- Building and designing software products as well as building custom Web based applications and Agile Project Management and having a strong knowledge in full stack development using Java, JEE, JavaScript framework (NodeJS/NestJS).like Angular, etc.
- Manage Azure services and subscriptions for multiple projects.
- Developed application using NX monorepo and micro-frontend technologies.
- Developed applications using NestJs using Axios and TypeORM and integrated with Postgresql and Okta IAM for authentication and authorization of the user and application level as well.
- Used ElectronJs to Build cross-platform desktop apps with JavaScript, HTML, and CSS.

- Responsible for Solution and Architecture design including deployment and implementation strategies for enterprise and Cloud platforms.
- Ensuring teams follow the correct procedures, policies, and documentation requirements across project phases.

Nov 2015 – Dec 2018 | Unisys India Pvt. Ltd., Hyderabad | Support Team Lead

Key Result Areas:
- Investigated, addressed & resolved issues of Production application and applied bug fixes in Agile process.
- Managed all aspects of application support for the production system on the cloud platforms in Azure.
- Provided technical advice and consultation on complex, critical issues and escalations.
- Defined specifications for complex operating software programming applications and modifies and maintained complex existing applications.
- Keep abreast of information technology and applied research trends and developments and incorporate them into assignments where appropriate.
- Developing JavaScript Frameworks and creating shared component libraries used in large scale production websites.
- Managed all aspects of application support for the production system on the on-prem application hosting.
- Working in close collaboration with users, other technical teams, and management to collect requirements, describe software product features, and technical designs.
- Creating/maintaining documentation to support development efforts. Documents may include implementation guides, application architecture diagrams, or design documents.

Certifications
- Microsoft Certified: DevOps Engineer Expert (05/2022 - Present)
- Microsoft Certified: Azure Developer Associate (05/2022 - Present)
- Microsoft Certified Professional (11/2012 - Present)
- Microsoft Technology Associate: Database Fundamentals (11/2012 - Present)

Education
- B.Tech. from Jawaharlal Nehru Technological University, Hyderabad
- Bachelor of Computer Science and Engineering
